OBJECTIVE

To obtain a software development position with a company where I can contribute with my skills to help that organization grow, and continue to develop and enhance my abilities as a developer.

WORK HISTORY

2014-Present UNITYWORKS Bloomington, MN

Software Engineer

- UnityWorks is a "big-data" video ad agency. We run multiple large scale campaigns which mainly consist of driving traffic to video landing pages. I work daily on the front and back end for multiple websites.
- Tech: PHP, MySQL, JavaScript, CSS, Windows, Cygwin, Linux, Sublime Text, jQuery, HTML, Codeigniter, JSON, Google Maps API, Google Charts API, MVC, Git

2014 ROBERT HALF Minneapolis, MN

Web Developer

- I was placed on a contract with UnityWorks as a Web Developer. After about 6 months, I was offered a full time position on their interactive team.
- Tech: PHP, MySQL, JavaScript, CSS, Windows, Cygwin, Linux, Sublime Text, jQuery, HTML, Codeigniter, JSON, Google Maps API, Google Charts API, MVC, Git

2011-2014 ALADTEC INC. Woodbury, MN

Software Engineer

- Aladtec is an online web based scheduling management system mainly for EMT and fire departments. I also worked in building their mobile apps.
- Tech: PHP, MySQL, JavaScript, CSS, Windows, Cygwin, Linux, OSX, Eclipse, Sublime Text, jQuery, HTML, Codeigniter, Java, JSON, Custom API, MVC, Subversion

2010 UNIVITA HEALTH Eden Prairie, MN

Intern

- I was on the software development team at Univita Health for the summer of 2010. I got to see first hand the development and planning that goes into producing a big website. I got a chance to do little things here and there for different people on the team. I helped with testing, database management, coding, web design and much more.
- Tech: JavaScript, CSS, Windows, jQuery, HTML, .NET

2009-Present JUSTINSTOLPE.COM

Personal Website
